Summary:

This policy details the auditing and monitoring process in relation to medication. It has been updated and reviewed to include reference to COVID-19 and changes to auditing practice. A new form section has been added to assist with the auditing of medication practices during the pandemic.

Relevant legislation:

- The Health and Social Care Act 2008 (Regulated Activities) Regulations 2014
- Medical Act 1983
- Medicines Act 1968
- Misuse of Drugs Act 1971
- Coronavirus Act 2020

## 1. Purpose

1.1 To ensure that, at all times, Care Workers are meeting the needs of Service Users in relation to medication management whilst monitoring systems and procedures for efficiency and effectiveness, ensuring that they remain fit for purpose.

1.2 To support HWCGRS Care (T/A Segal Gardens) in meeting the following Key Lines of Enquiry:

Key Question	Key Lines of Enquiry
EFFECTIVE	E1: Are people's needs and choices assessed and care, treatment and support delivered in line with current legislation, standards and evidence-based guidance to achieve effective outcomes?
SAFE	S4: How does the provider ensure the proper and safe use of medicines?

1.3 To meet the legal requirements of the regulated activities that HWCGRS Care (T/A Segal Gardens) is registered to provide:

- | The Health and Social Care Act 2008 (Regulated Activities) Regulations 2014
- | Medical Act 1983
- | Medicines Act 1968
- | Misuse of Drugs Act 1971
- | Coronavirus Act 2020

## 2. Scope

2.1 The following roles may be affected by this policy:

- | Registered Manager
- | Other management
- | Care staff

2.2 The following Service Users may be affected by this policy:

- | Service Users

2.3 The following stakeholders may be affected by this policy:

- | Commissioners
- | External health professionals
- | Local Authority
- | NHS

## 3. Objectives

3.1 HWCGRS Care (T/A Segal Gardens) complies with the policies and procedures for medicines management and can evidence, through audit processes, that the policies and procedures are adhered to by staff. There is evidence of continual improvement by analysis of themes and trends with medication practice that are addressed and acted upon in a timely manner.

## 4. Policy

### 4.1 COVID-19

- | The need for accurate auditing of medication practices maybe heightened during the COVID-19 pandemic
- | There is a likelihood that prescribed medications may change significantly when a Service User is symptomatic of, or diagnosed with, COVID-19
- | It has been recognised by CQC, the Government and the NHS that, during the COVID-19 pandemic, the approach to medication may need to be more flexible to ensure that Service Users receive the medication they need
- | This flexibility is supported by guidance in the areas of Monitored Dosage Systems, returning drugs to a pharmacy, handwriting prescription details on the MAR sheet and the reuse of named drugs for other Service Users
- | When HWCGS Care (T/A Segal Gardens) adapts medication practices to meet the needs of the Service User during the COVID-19 pandemic, it is recognised that additional auditing and monitoring of practice needs to be undertaken
- | The forms attached to the policy provide an additional framework to support auditing during the COVID-19 pandemic

**4.2** HWCGS Care (T/A Segal Gardens) understands that monitoring and auditing is an essential part of safe medication management and has the following benefits:

- | It provides a check for HWCGS Care (T/A Segal Gardens), i.e. "are we actually doing what we think we are doing?"
- | It helps HWCGS Care (T/A Segal Gardens) to implement and sustain improvements in its services
- | It provides evidence of current practice against national guidelines, regulation and local policy
- | It provides evidence about the quality of care in a service to establish confidence among stakeholders
- | It helps reduce the risk of errors and create a learning culture

**4.3** HWCGS Care (T/A Segal Gardens) understands the importance of ensuring that the 6 Rights of Medication have been followed and that there is a documented audit trail from receipt through to the administration and/or return of all medicines.

## 5. Procedure

**5.1** The Registered Manager must ensure that there is a complete, documented audit trail from the receipt through to the administration and/or return of all medicines.

**5.2** Mr Damian Cummings Gillian Gilmore will ensure that policies and procedures for medicines handling are accessible to staff via the App facilities and can evidence through audit that those policies and procedures are adhered to by staff.

**5.3** The audit is designed to evidence that the correct medication is:

- | Administered to the right person
- | Via the right route
- | At the right dose
- | At the right time
- | On the right date
- | Using the right documentation

There must also be evidence through audit of the Service User's informed consent and that the correct procedure has been followed if a Service User refuses their medication.

This system of auditing seeks to identify failures and eliminate medication errors and other medication related risks.

**5.4** It is the duty of Mr Damian Cummings Gillian Gilmore or designated others to audit all areas in which they work on a weekly, two weekly or monthly basis. The audit schedule will be agreed by HWCGS Care (T/A Segal Gardens) and the schedule cascaded to staff.

The audit schedule will be based upon risk with auditing increased at times of change or exceptional concern, for example, during the COVID-19 pandemic.

## 6. Definitions

### 6.1 Audit

- | A quality improvement process that seeks to improve care and outcomes through systematic review of care against specific criteria

## Key Facts - Professionals

Professionals providing this service should be aware of the following:

- | Medication auditing seeks to identify failures and eliminate medication errors and other medication risks
- | There will be a well-documented audit cycle that is adhered to
- | Staff will have access at all times to the QCS app and its suite of medication-related policies and procedures
- | Staff may be involved in the audit process as delegated by Mr Damian Cummings Gillian Gilmore

## Key Facts - People affected by the service

People affected by this service should be aware of the following:

- | You can be assured that HWCGS Care (T/A Segal Gardens) audits and monitors its service in relation to medication management to ensure that it is safe and effective
- | Your feedback is valuable and helps us to learn. Any suggestions you have will be listened to and considered

## Further Reading

As well as the information in the 'underpinning knowledge' section of the review sheet we recommend that you add to your understanding in this policy area by considering the following materials:

**The suite of medication management policies and procedures at HWCGS Care (T/A Segal Gardens)**

## Outstanding Practice

To be 'outstanding' in this policy area you could provide evidence that:

- | Audits are carried out regularly, at least once every month, with written/electronic records available
- | Any issues identified are rectified immediately via a robust action plan with clear timelines and accountability
- | Outcomes from audits are shared and lessons learned applied
- | The wide understanding of the policy is enabled by proactive use of the QCS App

<b>Instructions:</b>					
1. Conduct an audit in the last week of the medication cycle to give at least three weeks of administration records.					
2. Collect five MARs and complete the audit.					
3. If the MARs collected do not cover all aspects (e.g. a "when required" medicine), please select another MAR to audit this area.					
4. If there are no Service Users that cover all aspects (e.g. no one taking warfarin), consider re-auditing when possible.					
5. Complete the "Action Needed" column including realistic target dates.					
6. Re-audit as necessary.
